

**OPENER**

Grand Square  
Time goes by  
And I've been holding everything inside  
But now I've got nothing left to hide, when I'm with you  
Allemande and Weave  
But I can see  
How strong a man I'm gonna have to be (Swing and promenade around for me)  
To do for you what comes so naturally,  
It's in the way you move

**FIGURE**

Heads Square Thru and go  
Find that corner lady Do-sa-do  
Swing Thru, Spin the Top you know  
And a Right and Left Thru  
Square Thru, it's three hands round  
Swing that corner Promenade on down  
To do for you what comes so naturally,  
It's in the way you move

**MIDDLE BREAK**

Grand Square  
I believe in starting over, I can see that your heart is true  
I believe in good things coming back to you  
You're the light that lifts me higher; so bright, you guide me through  
I believe in you  
Four Ladies Promenade, one time around that ring  
Back home and Swing and Promenade I sing  
You're the light that lifts me higher; so bright, you guide me through  
I believe in you

**CLOSER**

Grand Square  
I believe in starting over, I can see that your heart is true  
I believe in love you give me reason too  
You're the light that lifts me higher; so bright, you guide me through  
I believe in you  
Four Boys Promenade, one time around that ring  
Back home and Swing and Promenade I sing  
You're the light that lifts me higher; so bright, you guide me through  
I believe in you

**TAG**

Oh, you guide me through, I Believe in You
